

TOUGH HARDWARE EASY SOFTWARE.

Software shouldn't be hard. That's why we back our rugged boards and subsystems with all the tools you need to easily and rapidly design, integrate and support your deployed electronics systems. You can depend on our board support packages, built-in test routines, diagnostic utilities, extensive software libraries and broad operating system support to reduce design costs and get your product to market faster. That's hard evidence that makes Curtiss-Wright the easy choice.
